Education

Stanford University

Sept 2022 – June 2027

Dual BS in Mathematics and Earth Systems (Land Systems)

MS in Computer Science (Theory)

- **Relevant Coursework:** Machine Learning, GIS/Remote Sensing, Probability Theory, Linear Algebra, Multivariable Calculus, Discrete Math, Conservation, Data Structures, Systems
- **Research interests:** AI4Math, AI4Science, Verification, Geospatial AI, LLM Evaluation

Publications

Brando Miranda, Zhanke Zhou, Allen Nie, Elyas Obbad, Leni Aniva, Kai Fronsdal, **Weston Kirk**, Dilara Soyulu, Andrea Yu, Ying Li, Sanmi Koyejo. *VeriBench: End-to-End Formal Verification Benchmark for AI Code Generation in Lean 4*. *ICML AI for Math Workshop*, 2025. [Nominated for Oral \(Top 1%\)](#)

Experience

CURIS Fellow, STAIR Lab

Apr 2025 – Present

Stanford CS Department

- Researching software verification in the STAIR Lab under Brando Miranda and Prof. Sanmi Koyejo.

Biology Researcher, Daru Lab

Sept 2023 – Present

Stanford Biology Department

- Researching crop wild relatives under Prof. Barnabas Daru; attended Biogeography R Workshop 2023.

Earth Systems Public Service Fellow

June 2023 – Sept 2023

Haas Center for Public Service, Save Our Springs Alliance

Austin, TX

- Co-founded a conservation coalition; presented at the inaugural event with 50+ attendees.

Projects

Remote Sensing of Land Final Project

2025

- Evaluated four GEE classifiers; literature-level accuracy with one-tenth the training pixels.

Moonquake CNN Classifier

2024

- Built CNN to classify moonquakes with 90%+ validation accuracy; currently labeling unclassified data.

BSURP Research Project

2024

- Developed algorithm for n -nearest monophyletically-clustered relatives; modeled diversity shifts.

CS 109 Grand Challenge Project

2024

- Used rolling MLE for Poisson/Exponential RVs to analyze spring-flow time series; finalist (9 of 113, ~8%).

Voronoi Flower Color Mapping

2024

- QGIS Voronoi map of 7 *Z. beyrichii* populations on the Balcones Escarpment (RGB mean; size-scaled).

Additional Information

CURIS Fellowship

2025

- Selected as 1 of 15 undergraduates for CURIS research fellowship.

YC AI Startup School

2025

- Admitted to inaugural conference (3k/18k ~17%); Math and CS students and professionals.

CS 103 Challenge Problem Award

2024

- Solved advanced theory problems on diagonalization, Turing Machines, and regular languages.

Jasper Ridge Docent Class Graduate

2023

- Completed BIO 105 A/B, a 20-week field-based course in conservation and natural history.

Heart of YMSL Award

2021

- Recognized for exceptional commitment to service and leadership among class cohort.
